

# Mapping the Scientific Mind

## Brief intro to concept mapping

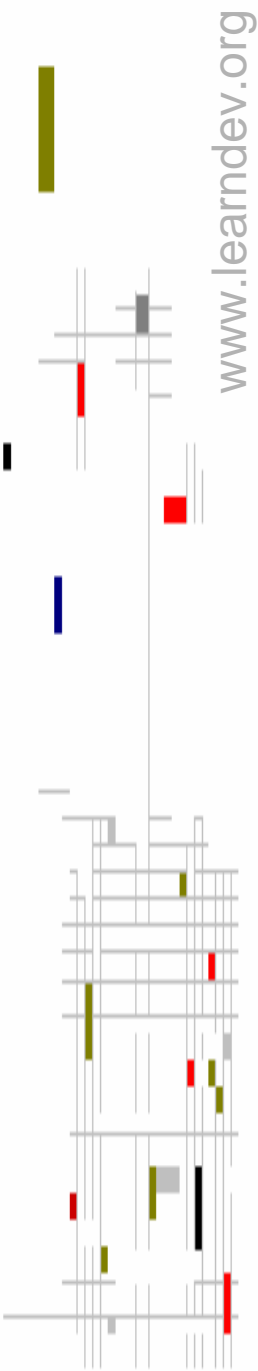

Jan Visser

# CONCEPT MAPPING

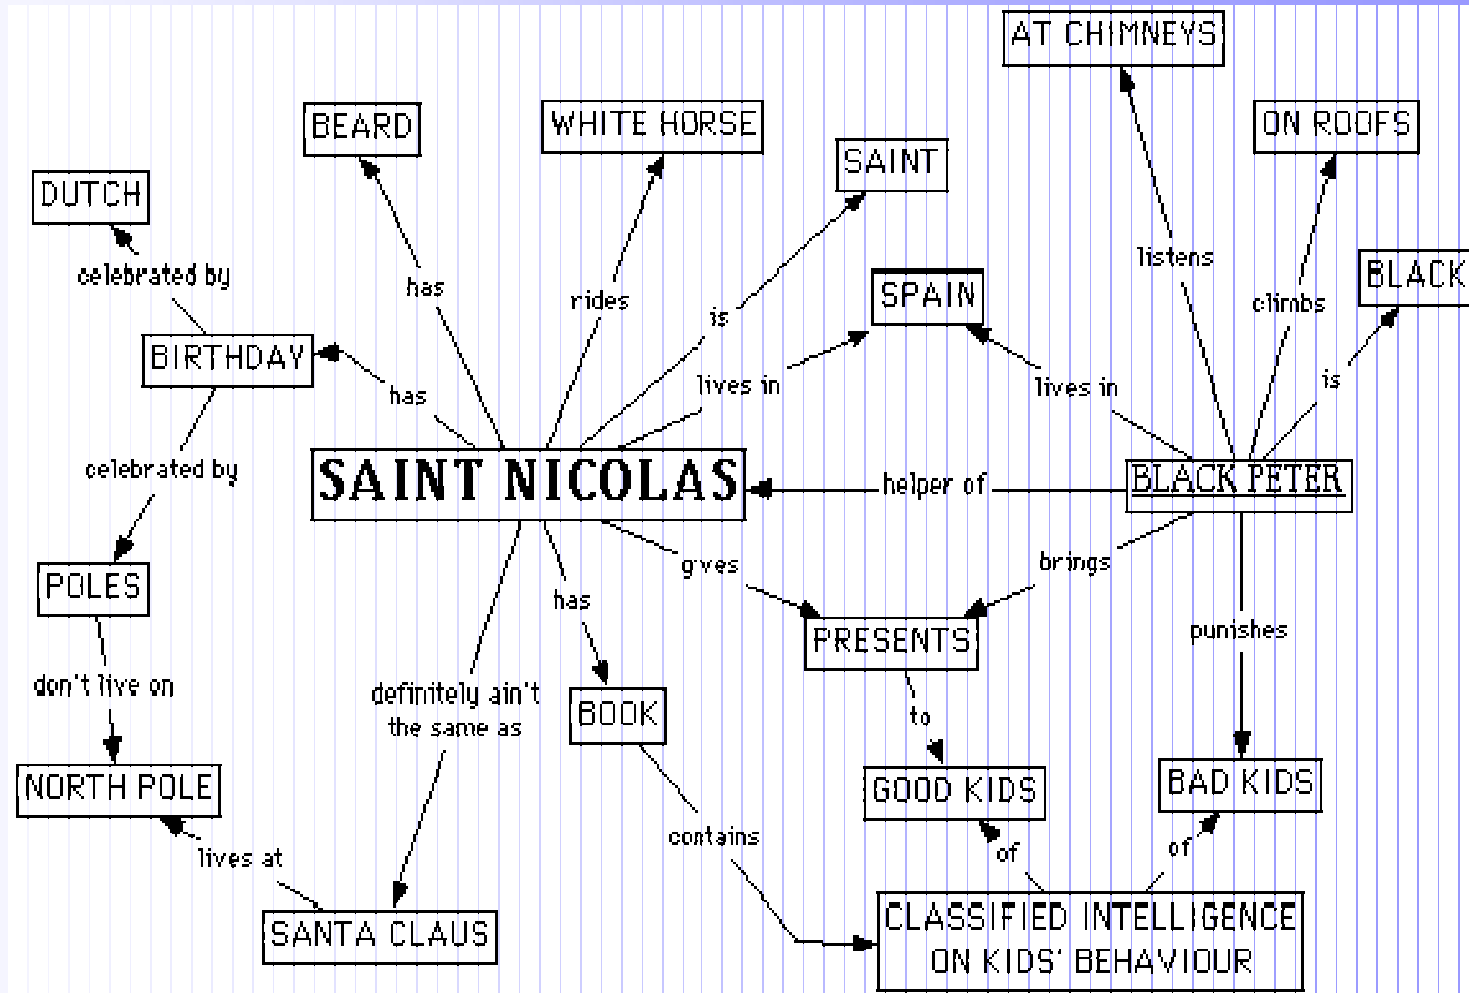

# Steps in the preparation of a concept map

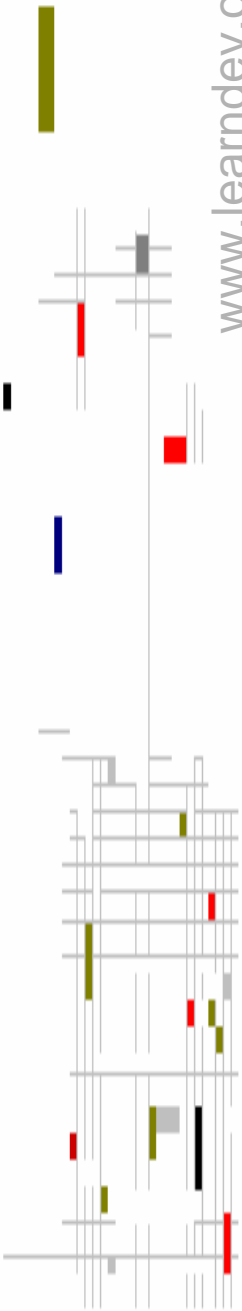

- ❑ Generate as many associations as possible.
- ❑ Organize associations.
- ❑ Discover how associated concepts relate to each other and to the main concept.
- ❑ Describe the relationships.
- ❑ Determine and indicate the importance of the various relationships relative to each other.
- ❑ Discuss implications of the concept map.
